- Effective Color-Coding
- Graphic Organizers
- Interactive Notebooks
- Engaging Murals / Graphic Input Charts
- Simple Songs and Chants

Academic Vocabulary Development

In an effort to further **educate, support, and empower** teachers, 10 strategies have been identified that support academic vocabulary development for emerging bilinguals based on the six Key Principles of ELL Instruction (Stanford, 2013) and Yosso's cultural and linguistic wealth (2005).

Contribute to your body of knowledge

Think about:

- What strategy did you know before that you learned new information on its effectiveness?
 - What new strategy did you learn?
 - How do you think you could use one or more strategies in your teaching?
 - What strategy do you see implementing right away?
 - How?
-

What activity or lesson can you see using one or more of these strategies with?

STRATEGIES to support
Academic Vocabulary Development

Was there an 'AHA' moment? Maybe several? What surprised or shocked you? What did you learn? What new idea do you have?
